Report from Patman and Bruce Holliday...

Thanks to all the Weasels who have already put in a great effort! With each day we are getting closer to the Olympic model. Some of the great work so far includes all of the A-net systems being hung up and how about the use of 23000 gallons of water being used in the last three days! We ask for your patience in several ways, one of which is the equipment shortage. More shovels etc will be here shortly. Thanks again to all the Weasels for the hours put in already and we'd like to say a big hello to Thomy Theys who has made it here from Beaver Creek.

Today's Job Jar...B-Nets and Slip Skirting. Now go to it.
