

Thank you, Weasels

Hello all,

On behalf of the National Alpine Ski Team - athletes and coaches I'd like to pass on a huge THANK YOU to each of you, to acknowledge your contribution and assistance over the last few years with helping to prepare our athletes with the best training opportunities possible.

Although our Olympic goals were not met it was not for lack of preparation and effort. Each of your contributions to our training needs helped the athletes make a few important steps towards reaching their potential.

One could surmise any number of factors, reasons (or excuses) for not reaching the podium, but we dreamed big, set our goals high and tried our best to attain them. We really feel for the athletes as the expectations and pressures that were put on them - the lofty but realistic goals that they were built up to believe in, naturally yielded some big disappointments when they were not met... but if you can't dream big, then you likely can't perform big.

So again, thank you for your time, assistance and cooperation with our training and preparation. It may not have paid off this time, but we truly believe that down the road we will make those dreams come true!

Sincerely,

The coaches and support staff of Canadian Alpine Ski Team

Rob Boyd
